- Hello, I'm Yume no Owari.
Thank you everyone who bought this book.

- Although I originally started with a story about Kongou,
it gradually became one about Ooyodo being bullied.
Serious girls in really embarrassing situations are the best.
I like situations where the serious girl who can normally
calmly deal with everything ends up acting her age
and letting her true face show through.

- Anyway, let's meet again sometime!

Yume no Owari

Good morning/afternoon, it's Satake Yura.
 Here's another doujin! We started from the bottom now we here.
 Though in the end it was mostly Yume (lol). Hopefully you enjoyed it.
 I feel like I'm going to get hungry at Comiket if I look at the cover.
 I think this is an excellent cover too. Does it feel any different from before?
 Mm, Kongou's pretty cool. Although I hadn't done much with Ushio-chan
 before,
 I've started training her lately. I hope everyone enjoyed this doujin.
 Anyhow, may we meet next time!
